

## Adding business value by joining Lawson with other corporate data.

Data overload is a common problem most companies face, especially due to an increasing number of ERP and operational systems transactions. Today, companies are finding themselves inundated with hundreds of terabytes of new data every year. Knowledge Solutions can help you integrate data from Lawson with other valuable corporate data providing a measurable Return-on-Investment.

### Knowledge Solutions specializes in joining translating your Data Streams into Smart Management Tools using Lawson Business Intelligence (LBI).

Knowledge Solutions builds and maintains LBI Data Marts utilizing our experience in Finance, HR, Procurement and Supply Chain operations.

We deliver enterprise-wide information management solutions that enable executives and decision makers to make timely and informed business and strategy decisions by integrating technology with business processes and policies.

### Our Knowledge Solutions LBI Senior Consultants can assist you with the installation, configuration and implementation of LBI.

#### Key Disciplines include:

- Reporting Services – Crystal Report Development
- FrameWork Services – Create Web Based Dashboards
- SmartNotifications – Automatic Notifications and Alerts
- Analytic Architect – Integrating Lawson & non-Lawson data
- Scorecard – Analyze data marts and data warehouses
- Process Flow – Automate manual processes

### Real Industry Challenges. Real Time Solutions. Real Value and Benefits.

Knowledge Solutions' senior consulting team brings years of experience in Business management, HR / Payroll, Finance, Procurement and Supply Chain. We have combined that knowledge with Business Intelligence to optimize processes and policies in order for companies to increase ROI. Our senior leadership team has been providing services and support to our clients for over 20 years, and we are continuing to invest in solutions and services that meet the demands of a real-time industry – where Business Intelligence can add up to millions of dollars in increased profits.

## Our Business Intelligence Practice offers a menu of components to support your information management and business decision needs.
